

WALK A MILE IN MY SHOES

INTRO-FINGER SNAPS-INSTRUMENTAL

I

Lyin' awake, shivering
night after night
like a lizard's tongue

I know something's really not right
when I don't wanna see the sun

I'm tired, I close my eyes
I see strange faces scream

Shake me, wake me from this strange dream

II

Where all the drunks are poets
all the singers holy fools
all the children are angels
living the Golden Rule

I don't think I'm crazy
don't think I'm losing my mind
Can't we live and let live and be kind?

CHORUS

Follow the muse
Walk a mile in my shoes
You gotta walk a mile
To feel these blues
Would you refuse?
What have you to lose?
Walking a mile in my shoes

BRIDGE

Seems we exist in their world
long as we do it their way
Do what they want and don't get in their way
A classic slacker, abstainer, disdainer, complainer
Repentent- I'm not
I've got to do things my way

III

I wanna be stylin' down Queen St.
Groovin' on the day
I'll be smilin' once again
when things are goin' my way

CHORUS

SOLO (VERSE-)

BRIDGE

I don't like the vibe on the streets tonight
Somewhere an accident's waiting to happen
I'm tired of getting obscene phone calls
at home at 3:00 a.m.
Someday I'm gonna pack it all in
(You know I will)

LAST CHORUS- change last word to "blues" from "shoes"
